

The long awaited new release of [Com Jigsaw, our Flash puzzle game for Joomla](#) , is now available. This component allows you to turn your site images into a jigsaw puzzle, and is great fun for adults and children. It will load images from any site folder you specify, and automatically turn them into a puzzle.

Version 3 includes some great new features:-

- The layout is completely flexible, it can be resized to any dimensions required, to fit into any site;
- unlimited images can be displayed;
- the puzzle now includes a timer, user time scores are now uploaded to a database table and displayed;
- social sharing buttons encourage users to advertise your site by posting the puzzle to their Twitter and Facebook accounts

[You can buy the game here](#) .

Existing customers who have bought the game in the last 12 months can update to the new version. If you do this you will need to uninstall the old version first before re-installing using the Joomla installer.
